Regulatory Update

30th September 2016

South Korea – Additional 5GHz Channels open for Wireless LAN.

South Korea have announced on the 30th of September 2016, that additional channels have been made available in the 5GHz bands for WLAN use as follows:

Previous Band	Updated Band	New Channels Opened
5470 MHz ~ 5650 MHz	5470 MHz ~ 5725 MHz	Channels 128,132, 136 and 140
5725 MHz ~ 5825 MHz	5725 MHz ~ 5850 MHz	Channel 165

Furthermore, it has been confirmed that 802.11ac devices, may now use 160MHz channel bandwidth in 5GHz band 3 - 5470 MHz ~ 5725 MHz
